# Ride 1: Wildpark

WP	Total	Dif.	Description
1	0.00	0.00	Head out the back of the parking lot on a yellow blazed trail, towards Grosser Wegestein. Basically you want to stay straight on this trail for almost 2 km until you reach the Forsthaus Nordtor (WP 3)
2	0.55	0.55	When a trail branches off to the left, be sure to stay right on green blazed trail
	1.25	0.70	Straight through major intersection
3	1.94	0.69	Left through gate immediately after the Forsthaus Nordtor
4	2.28	0.34	Five way intersection, go left-straight
	2.51	0.23	Stay right when trail splits
5	2.85	0.35	Careful! The trail you're on very briefly (only a few meters) merges with another trail which exactly parallels the train tracks. Stay left to remain on the same trail, heading slightly away from the tracks.
6	3.31	0.46	Left when the trail ends
7	3.75	0.43	Right on a yellow-line blazed trail at 4-way intersection. Just before this turn is a 3-way intersection, with a yellow-dot blazed trail, which you don't want!
	3.99	0.24	Pass by the parking lot for the Wildmeisterei and go right.
8	4.15	0.16	Just after the fence ends, go right to the top of the Kletterberg, stay left, then descend one of the best downhills in the Wildpark
9	4.72	0.57	Next (major) intersection, at the bottom of the downhill, go right to parallel the clearing that divides the Wildpark
	5.14	0.42	Continue straight to cross the train tracks. Be extremely cautious when crossing, use your eyes and ears as trains move very fast here. Once you're on the other side, continue straight away from the tracks, riding immediately through the 4-way intersection which would take you parallel to the tracks, and then straight through the next 4-way intersection as well.

10	5.51	0.37	Right at the next 4-way intersection. Very soon there is another intersection. Stay to the left on the main trail.
	5.96	0.45	Straight through intersection
11	6.63	0.67	Careful! After the trail gently curves around right, take your next left on a not so obvious trail (670 meters from the last intersection). If you come to the trail that parallels the train tracks, you missed your turn by about 50 meters.
	6.89	0.26	Straight-left to join the main trail
	7.05	0.16	Stay straight-right when the trail splits at the next 3-way intersection, and then head downhill on a sandy trail in a small valley
	7.65	0.60	At the bottom, stay left to merge with another trail, riding with a field on your right
12	7.91	0.27	After riding past the field, take your next right turn
13	8.03	0.12	Next right on the main path, check your computer, the next turn is in about 0.69 km
14	8.71	0.69	Careful! Watch for the next major trail which merges from your left. When you see it take almost immediately your next right (it's almost a 4-way intersection, but the trail to the right is easy to miss). Ride about 40 meters and go straight through the next intersection. If you're not sure about this take a look at the map.
	9.01	0.29	When two trails nearly join each other, be sure to stay straight to remain on your trail
	9.15	0.14	Continue on the single track next to the stables.
15	9.29	0.15	Single track ends, hard left turn
16	9.42	0.13	Right back on to the main trail, taking you slightly uphill, into the woods, and then curving around left.
17	9.88	0.47	After the trail curves left, take your next left at the intersection, and then up the steep climb to the summit of Schalereiberg
	10.30	0.42	Summit. There is a nice view if you walk the few more meters to the top. Continue straight on the same trail.
18	10.77	0.47	Trail turns hard right. Follow left along the fence surrounding the hotel. Cross the driveway at the entrance to the hotel parking lot, and keep following the fence around to the left.
	11.06	0.30	Fence finally ends, keep going straight
19	11.31	0.25	Right at the next intersection, you have been here before
20	11.76	0.45	Stay straight-right through three-way intersection

<b>21</b>	12.13	0.37	Merge with the main trail to the right
	12.40	0.27	Exit through the gate and left onto the road, next to the Alte Foersterei, cross Zeppelin Strasse, the major road, to the bus stop on the other side. Head down the short flight of stairs in the middle of the bus stop, cross the paved path, and go into the woods on a small trail
<b>22</b>	12.56	0.16	After a short distance head right on the main trail.
<b>23</b>	12.63	0.07	Take your first left, there are some green blazes along this trail
	12.93	0.31	Straight through the next intersection, stay right at the next fork (both go to the same place, though)
<b>24</b>	13.26	0.33	Left turn at four way intersection, to head away from the field on your right
	13.75	0.49	Exit the pine trees and head straight through the next intersection to ride along a fence and more open area on your right
<b>25</b>	13.93	0.19	Take the branch to your left. If you continue straight, the trail ends
	14.10	0.16	Fork - stay straight-right
	14.22	0.13	Merge and stay straight
<b>26</b>	14.42	0.20	X-type intersection - go left
<b>27</b>	14.80	0.38	Right just before the gate at Zeppelin Strasse.
	14.99	0.19	Exit on to paved trail, continue on paved trail parallel to Zeppelin Strasse and cross under the TRAIN tracks. Continue on the paved trail.
<b>28</b>	15.79	0.80	Just before crossing the TRAM tracks, cross Zeppelin Strasse. If there is too much traffic, cross at the light just down the street.
	15.83	0.04	On the other side, continue down Zeppelin Strasse a very short distance, then turn left back into the Wildpark, next to a map of the park, riding along garages and houses on your right, and wood posts on your left, towards Forsthaus Nordtor. There are some yellow blazes.
	15.99	0.16	The trail continues straight through a few vertical wood posts
	16.40	0.41	Cross field, continue straight
	16.64	0.23	Merge with main trail
<b>29</b>	16.76	0.12	Careful! Take your next hard right turn, which is difficult to see. If you find yourself back at the Wildmeisterei, you missed the turn.
	17.07	0.31	Small clearing at a 5 way intersection, go straight through
	17.35	0.29	Exit woods, merging with another trail.

<b>30</b>	17.48	0.13	Right on major dirt road, then immediately left.
	17.69	0.22	Merge with main trail
	18.05	0.36	End in parking lot
